Capabilities Statement

Resourceful team player with 32+ years of expertise in warehouse forklift operations, logistics management, inventory control, and business supervisory operations. Dynamic Transport and logistics professional adept in all phases of supply chain management. Highly effective at strategically planning and managing logistics, warehouse operations, transportation details, and customer service solutions. Consistently meets and exceeds organizational goals and completes multiple ongoing assignments

We can do expedited delivery which can be same-day, next-day, or two-day delivery services, which can be ideal for time-sensitive shipments. Transporting smaller cargo that can fit within the vehicle's cargo space, makes them ideal for transporting items such as packages, medical supplies, and electronics. We provide white glove services, which involve additional services such as inside delivery, unpacking, and debris removal. We can also do last-mile delivery when it requires delivering packages and products.

Our mission is to provide fast and reliable transportation solutions for businesses of all sizes while maintaining the highest standards of safety, efficiency, and customer service. We specialize in expedited delivery services for small to medium-sized cargo, using state-of-the-art sprinter vans that are equipped with advanced tracking and communication technology. Our team of experienced drivers and logistics professionals are committed to delivering every shipment on time and in perfect condition while providing personalized service and support to our customers. We strive to exceed our customers' expectations in every aspect of our business, and to build lasting partnerships based on trust, integrity, and mutual respect.

Core Competencies

- ◆ Expedited Delivery
- ◆ Last-Mile Delivery
- ◆ Small To Medium-Sized Cargo
- ◆ Customized Delivery Solutions
- ◆ Advanced Technology
- ◆ Safety & Reliability
- ◆ Flexible Reliable Transportation Solutions
- ◆ Efficient Customer Service Support

Differentiators

Daem Logistics is a logistics powerhouse like no other. This cutting-edge vehicle seamlessly combines advanced technologies with sustainable transportation. Real-time GPS tracking provides unparalleled shipment visibility, while AI-powered route optimization ensures peak efficiency. IoT sensors continuously monitor your cargo's condition and security.

But the innovations don't stop there. This sprinter van leads

the way in eco-friendly design with low emission output and green operating features. We're singularly committed to sustainable logistics practices.

What truly sets our sprinter van apart is its customized configuration and specialist operations capabilities. From the Joloda-Hydraroll loading automation system, this is no ordinary van. Daem Logistics drivers are experts in specialized sprinter operations and vehicle handling.

Above all, safety is the core priority. This sprinter deploys the latest driver assistance systems and stringent maintenance protocols to safeguard your valuable shipments from pickup to delivery. One vehicle embodying Daem's leadership in technology, sustainability, customization and safety-first logistics services.
